Gentlemen:

In accordance with Section 103 (c) of the Comprehensive Environmental Response, Compensation and Liability Act of 1980 (Superfund), W. R. Grace & Co. (Grace) submits Notification of Hazardous Waste Site Forms (8900-1) for reference facility. In these notifications, Grace generated and stored hazardous waste identified or listed in 40 CFR Part 261. This waste was known to be disposed of at the facility (site) listed in Item B on Form 8900-1.

In 1979 Grace submitted a completed questionnaire for reference facility in compliance with a survey conducted by the Subcommittee on Oversight and Investigations of the Committee on Interstate and Foreign Commerce. In this survey, waste was defined to include waste materials that result from a facility's industrial chemical process. Waste listed in Item E of this notification is only that portion reported on the questionnaire that is listed or identified as hazardous waste in 40 CFR Part 261.

A portion of Item F and Item H and I of the notification have been left blank as specific details are unknown.

Very truly yours,

Frederick W. Eaton
